

Practice 29 – DS-SE

Note: Use file "useme.c" for the tasks:

Task 01: Count the number of words in the paragraph. Use space and null character for counting. Ignore following characters:

- comma
- opening & closing parenthesis
- full stop

Task 02: Extend previous task, find length of maximum length of the word by counting length of each word, and again ignore the characters (mentioned in previous task)

Task 03: Count the number of sentences by using full stop and null character. Print each sentence in separate line.

Next tasks are independent of previous tasks:

Task 04: Take input in two different strings. Concatenate first and second string in third string . Print third string to show proper concatenation.

Task 05: Take input your complete name (with space) in a string. Separate first word of your name in first string and second word of your name in second string. Print both first and second string in separate lines.
